Subject: Dimock TDD Amendment

Jackie/Karen/Lorrie:

Attached are TDD amendment documents (TAR and IGCE) that need to be process asap. We needed START to work on data review over the weekend and burned up most of their current budgetted hours. We are in a better position now to estimate what the hours will be needed over the next 6 weeks for both sampling and data management support. that is reflected in the attached documents.

I have been informed by the Project Lead that Tech Law has reached their max hours. Lorrie, would you please call Joe Baer to give him a verbal to allow them to continue work on this site. Sorry for this issue....Thanks for your patience.

Rich
